

SAVE THE BEES - YOUR LAND

- Try to have something blooming all year
- Plant native plants
- Have a diverse array for different pollinators
- Try not to spray insecticides, READ THE LABEL
- Leave bare ground – avoid mulch and weed cloth
- Leave the leaves and stems – cut at 18-20 inches
- Gather stems and put them out of the way
- Consider a bee lawn
- Native flower window box!
- Water source
- Clean your bee hotel
